THE WEATHER.

The daily record of the thermometer in this city for yesterday, as reported by C. W. Brandon, druggist, was as follows: 7 a. m., 28 degrees above; 12 m., 36 degrees above; 4 p. m., 34 degrees above; 8 p. m., 32 degrees above.

ABOUT THE CITY.

Dr. Bacon of Butte is visiting friends in this city.

Nick J. Bielenberg of Deer Lodge was in this city yesterday.

There is a good deal of typhoid fever in Anaconda at present.

W. T. O'Connell, the lumber merchant of Missoula, is in this city.

Ther Brantley of Deer Lodge was among this city's visitors yesterday.

Peter Boyle of Front street showed his appreciation of his wife by striking her over the head and breaking the bone over her eye. The woman was very painfully wounded and it is said she will lose the sight of her eye. Boyle was taken before Judge Rockwell and fined \$25 for the assault.

This is pay day at the lower works and refinery. An immense force of men are now employed in those institutions. Next pay day there will be more money paid out in this city than on any previous pay day in the history of this city. A large force of carpenters are employed on the building for the new additions to the refinery.

The news in the STANDARD yesterday of the opening of the upper works was received with intense satisfaction on all sides in this city. The work of building the fires in the furnaces was commenced yesterday morning. A large gang of men are already at work in making the preparations.

Harry E. Lewis, San Francisco; Mark Solomon, Chicago; George C. Brown, St. Louis; J. E. Brady, St. Louis; J. M. Moore, Butte; J. C. Blackwood, Fremont, Neb.; Lee Cohen, Butte; D. T. Haskett, Chicago; Theo Brantley, Deer Lodge; N. J. Bielenberg, Deer Lodge; M. J. Jordan, Tacoma; Thomas J. Lane, St. Paul; W. T. O'Connell, Missoula; E. S. Johnson, St. Paul; S. D. Fullmer, San Francisco; and W. A. Kille, St. Louis, were registered at the Montana yesterday.

Leander Richardson's play of "The Millionaire," which will be seen at Evans opera house Saturday evening, gives Dan'l Sully an opportunity to do some excellent work, and this opportunity Mr. Sully improves.

The part of James O'Brien is strongly drawn and effectively presented. It is a different type of Irishman from that usually seen upon the stage, and shows the son of the Emerald Isle rounded out by a residence in this free country, and what it is possible for industry, shrewdness and straightforward dealing to accomplish. The dialogue of the whole play is well written, and teaches a good, wholesome lesson of the necessity of honor in business as well as in the social relations of life. "The Millionaire" was seen here last year and was greatly liked by our theater-goers.

The Upper Works are Now Running; So are Fortier's Bath Rooms.

I wish to inform my numerous customers and the public that I have completed and opened my bath rooms, which are the nearest in town. My bath tubs are porcelain; the best that could be procured. Everything is new and neat. Hot and cold shower over every tub. Give me a call and you will see that I am no d—liar. Ladies are welcome.

IT IS TAKING EFFECT

The Boycott Against the Chinese in Anaconda.

THEY ARE LEAVING TOWN

Two Hundred of the Celestials Have Gone From Our Midst Already—How They Look at It.

The boycott on the Chinese in this city is having its effect. Yesterday three of the Mongolians left in disgust; this week about 20 more will leave for China.

One of the most intelligent of the Chinamen in Anaconda said to a STANDARD reporter yesterday: "This cry against the Chinamen is pinching us. Hardly a place in the city employs Chinamen now. Not more than three or four Chinamen are employed in hotels or boarding houses where formerly 60 or 70 found work. People are afraid to hire us any more."

"Most of the Chinamen will get out of Anaconda in a few weeks. They will go home to China if they have money; if they are poor they will go to other states where people have nothing against the Chinese."

When asked if he didn't think the opposition to Chinamen would soon die out in Montana, he said: "No, the Chinese expect there will be great trouble yet if they stay in this country. They are afraid of the white people now because there is so much bad feeling. If the Chinamen stay here they think they will be killed." It is needless to say there is no ground for the fear that these people would be brutally treated, but they are taking a wise course in leaving a place where there is no longer any business for them.

When the crusade against the Chinese opened in Anaconda there were nearly 400 of them here; now there are not more than 150.

In general the resolutions of the labor unions imposing the boycott have been regarded. The Chinese restaurants are doing absolutely no business with the working classes who are members of unions. Business men, too, refuse to longer support the businesses run by Mongolians. Not more than 10 Chinamen are employed in private residences in Anaconda at the present; laundry work is growing scarcer each day. There will be almost nothing for them to do in the way of washing when the new steam laundry is in running order. Altogether the outlook for John in this city is very gloomy indeed.

WILL VISIT CHICAGO.

Members of Congress Will View the Great World's Fair Buildings.

WASHINGTON, Feb. 10.—Arrangements for the visit of the members of the Fifty-second congress to Chicago on Washington's birthday, for the purpose of inspecting the world's fair buildings in course of construction, are now complete, and a formal invitation was issued to-day by Chairman Durborow of the committee on the World's Columbian exposition. The visitors will leave Washington by special train Feb. 19, over the Baltimore & Ohio railway, and arrive at Chicago Saturday afternoon about 3 o'clock. The return trip will be made over the Pennsylvania road. Chairman Ewing stated this evening that the idea of inviting congress originated at an after-dinner talk at the house of one of the principal citizens of Chicago, and this has grown into a great citizens' movement. Particularly it is desired by the citizens of Chicago to remove the impression that the coming event has any connection whatever with the proposed appropriation for the World's Columbian exposition. The world's fair directory and officials have no connection whatever with the present affair, which is being conducted exclusively by the public minded citizens of the city of Chicago.

Mr. Brown Has a Kick.

To the Editor of the Standard: I am sorry to have to ask you to correct the statement published in the STANDARD to the effect that I was expelled from the Cooks and Waiters' union of Butte. I was not expelled, but was suspended. I think the members of the union should have published the facts as they were. I challenge any of them to say that I have not acted like a gentleman always. I am a gentleman of good standing and behavior. With the union I am hand in hand and I still stand on my principles.

CHARLES E. BROWN.

ANACONDA, Feb. 10.

Two Heads, but Only One Fare.

From the Brooklyn Eagle.

The famous two-headed boy, now on exhibition in Boston, has curious experiences outside the museum as well as in it.

When he was traveling from Philadelphia to Chicago with his father and manager, the conductor, seeing two heads and receiving but one ticket, asked for another. The father, who does not speak English well, said: "No, — one!"

The conductor insisted, and finally threatened to put one of the boys off unless he received another fare.

Thereupon the manager, who was in the next seat enjoying the joke, stepped back and unbuttoned the little fellow's coat, remarking: "All right, put him off. Which one shall it be?"

The conductor passed on.

A Noted Professor Dead.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. The old Sarsaparilla attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Try it and note its delightful action. Chas. Lee, at Beamish's Third and Market Streets, S. F., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."
